CASH EQUIVALENT ¹	0.9%		1.4%		0.9%		2.4%		0.7%		1.1%		0.4%		Standard deviation is a statistical measure of volatility. Relative Risk is the ratio of the portfolio's volatility compared to the volatility of the market as a whole, represented by the Equity Baseline (EBP); see disclosures. Standard Deviation and Relative Risk are presented over a three-year timeframe, and are calculated using 36 monthly returns. The Average Expense Ratio reflects the operating expenses of the holdings of a typical allocation within the Risk Budget range listed, as of the date of this report. Client holdings may vary. Operating expenses are taken out of assets and lower the return to investors.

Disclosures

0757-BCI-3/14/2023

Performance results represent composite returns. Brinker Capital Investments, LLC ("Brinker Capital") assigns each of its clients a Risk Budget based on a client profile. Accounts are grouped into categories based on the risk budget and then compared to a Benchmark of a similar risk level. The following composites are listed in order from most aggressive to most conservative. Orion Portfolio Solutions, LLC d/b/a Brinker Capital Investments a registered investment advisor. This composite report is supplemental to the Firmwide Composite Report made available on an annual basis. The Firmwide Composite Report is provided upon request. An ETF is a type of investment company whose investment objective is to achieve the same return as a particular market index. An ETF is similar to an index fund in that it will primarily invest in the securities of companies that are included in a selected market index. An ETF will invest in either all of the securities or a representative sample of the securities included in the index.

Risk Budget	Composite Description	Composite Benchmark	Inc Date	Risk Budget	Composite Description	Composite Benchmark	Inc Date
95 to 100	The Risk Budget 100 Composite contains all discretionary accounts that have a risk budget between 95 and 100.	100% Equity Baseline (EBP)	4/1/2001	55 to 64	The Risk Budget 60 Composite contains all discretionary accounts that have a risk budget between 55 and 64.	60% EBP / 40% Morningstar Cash Index	1/1/2003

The Equity Baseline (EBP) is a blended index comprised of 60% domestic equity (represented by the Morningstar US Market Index) and 40% international equity (represented by the Morningstar Global Market exUS Lg-Mid index), rebalanced daily. The Morningstar Global Market Large-Mid Index is an index that measures the performance of the global market's equity markets targeting the top 90% of stocks by market capitalization. The Morningstar US Market Index is an index that measures the performance of US securities and targets 97% market capitalization coverage of the investable universe. It is a diversified broad market index. The Morningstar US Large Cap Index is an index that measures the performance of US large-cap stocks. These stocks represent the largest 70% capitalization of the investable universe. The Morningstar US Small Cap Index is an index that measures the performance of US small-cap stocks. These stocks fall between the 90th and 97th percentile in market capitalization of the investable universe. In aggregate, the Small Cap Index represents 7% of the investable universe. Morningstar Global ex US Large-Mid Index is an index that measures the performance of Global Markets (ex-US) equity markets targeting the top 90% of stocks by market capitalization. The Morningstar DM ex US Large-Mid Index is an index that measures the performance of developed markets ex-US equity markets targeting the top 90% of stocks by market capitalization. The Morningstar EM Large-Mid Index is an index that measures the performance of emerging markets targeting the top 90% of stocks by market capitalization. The Bloomberg Barclays US Aggregate Bond® Index measures the performance of the total United States investment-grade bond market. The Morningstar Cash Index is an index that measures the performance of a Treasury Bill with six to eight weeks until maturity in the US market. The Bloomberg Commodity Index is made up of exchange-traded futures on physical commodities and represents commodities that are weighted to account for economic significant and market liquidity. This index provides investors with a means of understanding the performance of commodity futures markets and serves as a benchmark for investment performance of commodities as an asset class. The volatility of the indexes may be materially different from the individual performance attained by a specific investor. In addition, portfolio holdings of investors may differ significantly from the securities that comprise the indexes. You cannot invest directly in an index.

The corresponding benchmark for the portfolio can be calculated by combining indexes in the allocations described above for each risk budget. Actual account holdings and performance for individual clients may vary. Investments are not guaranteed and will fluctuate, so that when redeemed, they may be worth more or less than their original cost. Past performance is not indicative of future results.

Composite performance results are based on a composite of all managed accounts that fall within the specified risk budget ranges in each of the identified products. Performance results may or may not depict the actual investment experience of any single client due to the timing of investment contributions, withdrawals, trade implementations and client or adviser directed investments. Composite performance results exclude (i) accounts under Brinker Capital management which do not maintain a balance during the entire composite period, and (ii) certain accounts under management that have temporarily been removed from the firm's discretion through client initiated actions. Returns are computed monthly and include the reinvestment of all income and are reduced by transaction costs. Returns are presented by both gross and net of fees. Gross returns do not reflect the payment of investment advisory fees. Net returns reduce the return of each account by 1/12th of the applicable annual management fee rate. Management fees incurred will vary. For a list of management fees by strategy, please see our Form ADV Part 2A.

On April 10, 2003, Clarke Lanzen Skalla Investment Firm, Inc. changed its form of organization from a corporation to a limited liability company. It was known as CLS Investments, LLC from this change until September 24, 2020, and was then known as Brinker Capital Investments, LLC. Effective December 31, 2022, Orion Portfolio Solutions, LLC, an affiliated adviser, was merged with Brinker Capital Investments, LLC (Brinker) with Brinker surviving the merger and changing its name to Orion Portfolio Solutions, LLC. Brinker Capital Investments, LLC relies on the performance data of its predecessors.
